INDEX

This is an Analytico-Alphabetical Index. The reference is to a contribution, its section or sub-section as the case may be. For this purpose, the articles and other features in the *Herald of library science* have been numbered in the alphabetical sequence A-Y and ZA-ZY making Z the sectorising digit. The sections and sub-sections of contributions are in decimal fraction notation except the Notes and News which have been listed serially.

Example : 1 'Decrease in the reading interest of children' is J5, which means that it is the section 5 of the article J. The index entries have been arranged as under :

Reading
Interest
Children
Decrease in

2 'Systems and Specials in a classification scheme' is DA33, which means it is the sub-section 3, of section 3, of part A, of article D; where

D=How to select a classification scheme
DA=Essentials of a classification scheme
DA3=Scientific basis of a classification scheme
DA33=System and Specials in a classification scheme
